Professional Summary

Senior Full-Stack Software Engineer with 8+ years delivering secure, scalable web, backend, and real-time systems across regulated gaming, enterprise, retail, e-commerce, and B2B products. Hands-on experience with Angular, React.js, NestJS, Node.js, Java/Spring Boot, PostgreSQL, AWS, and CI/CD. Strong record integrating enterprise platforms, building cloud services, improving performance, and shipping testable products with cross-functional teams.

Technical Skills

Languages: TypeScript, JavaScript, Java, SQL

Frontend: Angular, React.js (ReactJS), Angular Material, RxJS, HTML, CSS

Backend: NestJS, Node.js, Spring Boot, REST APIs, WebSockets, Microservices, TypeORM

Data and Cloud: PostgreSQL, AWS Lambda, Cognito, S3, SNS, Docker

Engineering: CI/CD, Unit Testing, End-to-End Testing, Agile/Scrum, Clean Architecture, Security, Regulatory Compliance

Professional Experience

Senior Software Engineer

Nov 2024 – Jul 2026

Blaze

Remote, Brazil

- Built integrations with third-party game aggregators and delivered original casino games for a regulated Brazilian online-gaming platform.
- Optimized real-time multiplayer casino game flows, reducing latency and improving gameplay responsiveness.
- Implemented Brazilian online-gaming regulatory requirements and compliance controls.
- Built secure authentication and identity-management capabilities, including two-factor authentication, and increased critical-workflow coverage to 90%.

Senior Software Engineering Consultant

Feb 2024 - Aug 2026

Polodev SpA

Remote, Chile

- Led end-to-end delivery of inventory and supplier-management products using NestJS microservices and Angular.
- Designed AWS architecture using Lambda, Amplify, Cognito, S3, and SNS for secure, serverless products.
- Advised cross-functional teams on chatbot, sports-court booking, and facility-reservation systems.

Senior Software Engineer

Sep 2021 – Dec 2023

Falabella

Remote, Chile

- Delivered transport-order entry and carrier-payment flows integrated with SAP for TMS and payment systems.
- Designed Angular applications and microservices using Clean Architecture.
- Built REST APIs that reduced manual data entry by 80% and supported taxation workflows across Chile, Peru, and Colombia.

Semi Senior Software Engineer

Sep 2019 – Sep 2021

NTT Data

Remote, Chile

- Improved delivery practices through Agile ways of working, CI/CD, and automated testing.
- Built Java Spring Boot and Node.js/Express microservices using AWS SES, Cognito, and hosted cloud services.
- Developed secure Angular 8 applications and contributed to e-commerce testing with PHP and Magento 2.

Junior Software Engineer

Jul 2018 – Sep 2019

Carpentries

Chile

- Delivered intranet portals for news, video, chat, and galleries using Angular and Node.js.
- Used Google Analytics and Adobe XD to connect user needs, prototypes, and product changes.

Entry Software Engineer

Jul 2017 – Jan 2018

Innoapsion

Chile

- Delivered a checklist web platform with reports, employee administration, and role management.
- Built an Android application for field reporting and checklists; planned delivery using Kanban.

Education and Languages

Analyst Programmer, INACAP

Mar 2016 – Jul 2018

EF SET English Certificate

Feb 2023

efset.org/cert/tCqhHs

Languages: Spanish (native), English (working proficiency)
